This is my season of breakthroughs and Double Portion anointing. I shall not be denied of any blessing or miracle that You have ordained for me, in Jesus mighty name, Amen.

HELPFUL HINTS

1. FOCUS on the Word of God and increase prayer during a fast.
2. Fasting will increase your faith and your relationship with God.
3. During a fast, prayers must be specific. It is wise to keep a journal of your prayers and how God answers them.
4. Avoid eating a large meal before you begin to fast. This will make you even hungrier when you start your fast. Continue to eat fruit and vegetables for at least three days before you begin to fast.
5. Drink lots of water and fluids: bottled, distilled, or purified water should be warm at room temperature. Do not drink tap water.
6. Day one will be the hardest day of the fast, each day actually gets easier as you pray and press your way into God.
7. Fasting strengthens your inner will. You will not starve to death by fasting. Fast until God has dealt with you or you feel a release.
8. Fasting will not impair your health; however, consult with your physician if you have any concerns. It is not recommended that a pregnant woman should fast.
9. Headaches, bad breath, nausea and rundown feelings are signs that the fast is working. These symptoms should cease after the 3rd day.
10. The victory often comes after the fast is over.
11. Wisdom should be used when breaking a fast. Do not eat food, like meats, that are hard to digest when breaking a fast. Eat fruits or vegetables and drink plenty of water before, during and after fasting.
